***Claim Rejections - 35 USC § 103***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 2-37 and 39-40 are rejected under 35 U.S.C. 103(a) as being unpatentable over Subramanian et al.

See the appropriate paragraph of the previous Office action.

***Response to Arguments***

Applicant's arguments filed 10/19/04 have been fully considered but they are not persuasive.

Applicants' 10/19/04 remarks are convincing that the original specification supports the instance of "exclusively by capillary force" in the last lines of claims 39-40. Applicants' concludes the cited prior art fails to teach this limitation and the application is now in condition for allowance. The Office does not agree the application is in condition for allowance. The Office believes Subramanian et al. is the strongest rejection and has vacated the rejections over the other references cited in the 4/20/04 Office action.

Applicants' argued in the 8/20/04 remarks that Subramanian et al. teaches an additional porous element that achieves the capillary flow of the sample into the reaction chambers that is not required by the instant invention. The pending claim language is open and does not exclude additional elements taught by the prior art. Furthermore, the

Art Unit: 1743

claimed structure for generating the capillary force is sufficiently broad that it is properly read on the means taught by Subramanian et al.

### ***Conclusion***

This is a RCE of applicant's earlier Application No. 09/623,910. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
